This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # Foreword

The object of this work is so obvious that it would seem a foreword was hardly necessary, but to bring publisher and public closer together we wish to state briefly the aim and design of "Who's Who Among North American Authors."

In the writing of magazine articles, club papers, or speeches for public assemblages, occasion often arises that points to the desirability of referring either to an author or to some of his writings. Very often the writer of such material also wishes to ascertain the facts of an author's life and his present residence. It is to give such information and to bring the author and public into closer relationship that this book has come into print. The publishers have been greatly encouraged from the inception of the work by the hearty accord and splendid words of encouragement that have come from all parts of this country, Europe, and even from resident authors in China and the islands of the sea.

That there may be no misconception in the mind of the public the publishers wish to state emphatically that no financial consideration has prompted them to insert the name of any author. The authors who appear in this volume have done so wholly by invitation and there has never been nor ever will be a question of anyone being included in "Who's Who Among North American Authors whose work is not worthy to be ranked among the best of American writings. It is very true that we have been compelled to omit many whose writings would entitle them to a place in this volume who have not yet definitely aligned themselves as authors in the sense of publishing their writings in book form; these we hope will sometime do so, and then will be available for this compilation.

The names of some great authors will be omitted from this book that the public would naturally expect to find within its covers. It has been the policy of the publishers to insert only the names of those authors that have responded personally to the invitation by giving the facts of their own lives. Some of these prominent authors could not be reached, being in different parts of the world, or their answers received in time for publication. Next year we expect to incorporate such names as are missing in the present volume.

We sincerely hope that despite all the faults which every first volume must have in the course of feeling its way to the best and most satisfactory manner of presenting its material, not alone the authors but also the public at large will conceive a very real interest in "Who's Who Among North American Authors" and will aid us in the compilation of next year's volume by sending us the names and addresses of authors who may not appear in this year's edition.

We wish also to call attention to the addenda to this volume as being especially desirable, supplying reference not only to the published books of the authors who appear in this volume, but to the "Reference to Magazine Articles" which to the best of our knowledge appears in no other book. This directs

Digitized by Google

readers to the technical writings in the magazines of the country, giving the date of issuance and name of periodical in which they appeared. This section, we feel sure, will be especially appreciated by those writers or lecturers who desire such information and know not where to look for it.

We would not close this little introduction without expressing our appreciation to the libraries of the United States, Canada and Europe for their splendid co-operation and encouraging response, as meeting a need that librarians found existed everywhere of facts relating to the life, work and residence of American authors.

## WHERE TO PLACE MANUSCRIPTS

### PUBLISHERS

Thos. Y. Crowell and Co.

Messrs Thomas Y. Crowell and Co., the well known publishers, notify us of their readiness to consider fiction, as well as manuscripts dealing with business topics, New Thought and miscellaneous subjects. All Mss. submitted to them at 426 W. Broadway, New York City, will be acknowledged promptly on receipt, and a report thereon will be forwarded to the author in ten days' time. Payment is by royalty or by purchase outright, according to arrangement. This firm, which dates back to 1876, bears a high reputation as publishers of Reference works, College, Economics and high grade Juvenile literature, as well as of fiction.

### AMERICAN TRACT SOCIETY

From the American Tract Society, at their New York address, Cr. Park Avenue and 40th St., comes an announcement that they are in the market for fiction, biography and general topics, with strong religious treatment. They pay by royalty, and will acknowledge arrival of manuscripts immediately. Their leading demand is that all manuscripts submitted to them must teach religious truth in some form and must be evangelical, explanatory, illustrative or evangelistic. The American Tract Society publishes books, periodicals and leaflets.

### SILVER, BURDETT AND CO.

To the educational world the name of Silver, Burdett and Co., is familiar as publishers of textbooks for public schools, normal schools, colleges and universities. They are interested in having manuscript submitted that may prove suitable for textbooks for use in any of the above-named institutions. They will advise (by letter) of the receipt of manuscript and prefer to make payment by royalty. All Mss. should be addressed to Messrs Silver, Burdett and Co., 221, Columbus Ave., Boston, Mass.

### MAGAZINES

### THE PEOPLE'S HOME JOURNAL

The People's Home Journal, a widely read Home and Fiction magazine, is published by F. M. Lupton, Incorporated, at 76-88 Lafayette St., New York City. The Editor, Mr. Moody B. Gates, tells us that he is interested in considering fiction as well as short and unusual miscellany. The magazine is published on the 18th of the month preceeding date of issue, and the subscription is $1.25.

### THE HOUSEHOLD GUEST

The interesting story paper, the Household Guest, is one of the Household Publishing Corporation's publications. Mr. W. G. Wilson, its Editor, specially requests material dealing with love and adventure. This should be submitted for his consideration addressed to the Household Publishing Corporation at 141 W. Ohio Street, Chicago, Ill., by the 1st of the month previous to publication. The Household Guest appears monthly, and the subscription is 50 cents.

### BOYS' LIFE

(The Boy Scouts' Magazine).

Messrs F. K. Matthews, Irving Crump and Dan Beard, the associated editors who are responsible for the publication sent out by the Boy Scouts of America, mention that their magazine comes out on the 20th of each month, and that the subscription rate is $2.00 per year. They will pass upon fiction suitable for boyish readers and on bright inspirational articles. MSS. reaching them at any date will be given careful reading. Address: Irving Crump, Managing Editor, 200 5th Ave., New York City.

### THE HOUSE BEAUTIFUL
